

**Dear Parents,**

**Single case at Edison Primary School - Advice to parents or carers**

We would like to inform you that there has been a confirmed case of COVID-19 in Year 4. Our Year 4 bubble are now self isolating and will continue their learning online via Seesaw. We would like to thank our Year 4 parents for their swift collection of their child.

We are continuing to monitor the situation and are working closely with Public Health England. This email is to inform you of the current situation and provide advice on how to support your child. Please be reassured that for most people, coronavirus (COVID-19) will be a mild illness.

The school remains open to all other Year groups,

***Please note that it is every parents responsibility to inform the school as soon as they receive a positive test result. We monitor our emails over the evening and weekend, so that prompt action can be taken by the school.***

**What to do if your child develops symptoms of COVID 19**

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared.

All other household members who remain well must stay at home and not leave the house for 14 days.

The 14-day period starts from the day when the first person in the house became ill. Household members should not go to work, school or public areas and exercise should be taken within the home.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community. If you are able can, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period.

**Symptoms**

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature

-a loss of, or change in, normal sense of taste or smell (anosmia).

**For most people, coronavirus (COVID-19) will be a mild illness.**

If your child or anyone in the household does develop symptoms, you can seek advice from NHS 111 at:

<https://www.nhs.uk/conditions/coronavirus-covid-19/symptoms/> or by phoning 111.

### **How to stop COVID-19 spreading**

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19.

#### **Do**

- wash your hands with soap and water often  
– do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

### **Further Information**

Further information is available at:
