### Curriculum update

At Edison, we provided an exhilarating opportunity to our students in year 6, inviting them to participate in a Maths quiz championship.

After initial class quiz, we selected four students to represent our school in the Area Heat.

The chosen four students from Edison Primary School competed against counterparts from 88 other schools, in a remote setting.

We are delighted to share the news that Edison Primary School bagged 1st place. This outstanding achievement means that we will now be going into the finals to compete against other schools, at Oxford University.

Our heartfelt congratulations go out to these remarkable students for their participation in the Area Heat and we cannot wait to see them perform at Oxford.

Huge Congratulations to Ibrahim, Zohair and Kartik in Year 5 and Yuwan and Zain in Year 4! They all joined Mrs Valentin for Millionaire lunch after collectively reading a total of nearly 10 million words!

They have continually demonstrated their deep love of reading and even made some excellent suggestions for authors and books that we can include in our school library. Well done to each one of them.

#### **Autism Awareness Week at Edison Primary**

In April, we proudly celebrated Autism Awareness Week with a whole-school competition inviting children to create projects centred around autism. We were truly overwhelmed by the incredible response and the creativity shown by our pupils.

Entries ranged from powerful awareness-raising posters and heartfelt poems to hands-on creations like sensory walls and impressive digital submissions. We are delighted to announce that the three main winners will be receiving a special accolade from Mrs Valentin during our upcoming assembly. Runner-up entries will also be recognised and celebrated for their efforts.

We are immensely proud to be an inclusive school, and the thought, care and understanding demonstrated by our children through their projects reflect our shared values in action as clearly visible in their projects.

Before the Easter Holidays, our Reception pupils had an exciting trip to the Lookout Discovery Centre—our first school trip on a coach! We explored science through play and worked together in fun team activities. The best part was the light and fire show, where we learned about different sources of light, how fire works, and how chemicals react. We watched a candle burn, discovered animals that make their own light, and learned about the fire triangle. The most exciting moment was seeing the amazing tornado of fire!
